

Meeting 26 June 2024, 6:00 pm

Attendance: BWhitehouse, MJensen, JCurwen, TTate,
NSemanik, BSteward, RHarrison, DDow, MMcCoy

Continued discussion about possible fund raising options. BWhitehouse indicated he has had many members request for more information. The entire department will be needed as we move forward.

The association will need to determine the scope of the particular fund raising event that could include the burn center, cancer research, and scholarships for specific fire service functions. Discussion for fund raising include sale of t-shirts, hats, toy fire trucks and hydrants.

The 501C status of the TVFD Association limits the amount of donations we can receive at \$50,000. This includes the \$37,500 that Tooele City donates.

BSteward showed a t-shirt logo design that American Fork Fire Association uses.

We need to look into updating the TVFD Association website to assist with the fundraising.

BWhitehouse discussed obtaining an older TVFD apparatus (possible engine 9) that the Association could use to represent the Association for fund raising and at events. Would be approximately \$100 annually from the Association for insurance.

JCurwen requested the association purchase a slushy machine to be used at firefighters convention and other fire department function. Cost is approximately \$1000 and board members approved.

Our charter would need to be updated to address donations.

It was reported that Pat College had an injury and is in a care center. MJensen will make arrangements for flowers to be delivered by CShubert.

Motion to adjourn.
